Labels

Select Category: [▼]

Type   ☒ [Type]

Add Tags [   ] [   ] [   ]

Location [   ]

Post

⬛ NSFW
👥 To/From
🕵 Anonymous

- User selects one Category
    - If user selects "___" [blank] Category, prompt user input
- Type would be already selected type (General, Event, Visual, Question, Link) with icon
- Option to Add Tags and Location(s) to Post

Can add "Post Options" in bottom right (NSFW, To/From, Anonymous) at any time.
- NSFW - Mark as potentially explicit/triggering content
- To/From - Free-form entry specifying "To" (target audience) and/or "From" (speaker identity)

Example Create ID - Question with To/From

- Anonymous - do not attach username to post

    c. On Wall:
        i. Toggle Categories and Types On/Off
1. Icons for All On (Sun), All Off (Moon), Custom (Select)
2. Type menu hidden by default, opens when user clicks "Type"
3. Double-click to 'Solo' (show posts from only this category/type)
4. Show Type icon on preview ID's

ii. Location [right of wall]
    1. Show 50 pins on map for posts on current feed; heatmap for global view. Toggle buttons at bottom of map

Feed mode - 50 drop pins   World mode - heat/density map

Feed view - Google Maps API: https://developers.google.com/maps/
World view - Vida API: https://vida.io/gists/TWNbJrHvRcR3DeAZq

d. Enlarge a Selected ID
    i. Vote count, Upvote & Downvote buttons, Save [Right]
    ii. Comment count, top comments preview, option to open comments, enter comment [bottom left, expand below]
    iii. User assigned tags [bottom-middle]
    iv. Label - Type and Category [bottom right]

*If a post is a To/From post, show on right side of ID:

      v.   Clicking on author prompts "Follow" button, and option to turn on Post Notifications.

1. Push = +3 upvotes, user allowed 3 a day. Revealed after user upvotes, with # remaining on left of icon. Send all Followers notification (eg. "TheBluePrince Pushed this post ___")

    a.   After Downvote, option to mark post as NSFW/Flag
    b.   Content reported as abusive/hateful/profane will be directed to a moderator to be reviewed. Content marked as NSFW will be placed in a NSFW Type.
